Behaviour Code – Interactions with Children

Documented guidelines regarding behaviour and guidance for children help ensure that children, families, and staff/educators have a safe environment, and consistency and clarity around acceptable behaviour and guidance measures that will be implemented.

As a staff team we believe:

- In ensuring the dignity and rights of all children are maintained at all times.
- All children have the right to feel secure and to learn and develop in a psychological and physically safe environment.
- Children have a right to express their feelings and to be supported to develop positive behaviours that underpin the development of positive, responsive and trusting relationships with peers and adults.
- Effective communication and learning occurs when families and staff/educators work together to develop common goals for a child's wellbeing, learning and development.
- That family consultation is valued and their individual perspectives respected.
- Children have the right to be supported by staff/educators who model appropriate behaviours and ensure consistent limits are set.
- No child should be made to feel rejected, insecure, embarrassed.

As a staff team we promote positive behaviour and interactions by:

- Planning for and providing an environment that promotes a sense of belonging, being and becoming and provides enhanced opportunities for learning through play.
- Ensuring that limits set are reasonable and understood by all children and adults.
- Providing an enriching and engaging program that enables each child to experience success, a sense of wellbeing and gives opportunities to express feelings through sensory and other forms of play.
- Using positive verbal and non-verbal guidance.
- Demonstrate empathy and sensitivity to each child being mindful of the variety of factors that influence behaviour.
- Planning enabling opportunities for the development of skills and dispositions including resilience, agency, entry and exit skills when playing, appropriate risk taking, conflict resolution, independence, leadership, respect for others and communication.
- Interacting positively, using positive language and acknowledging and modeling respectful behaviour.
- Valuing children as individuals within their family and cultural context.
- Involving children in goal setting, developing group norms and the development of behavioural expectations and consequences.
- Intentional teaching of appropriate behaviours and play skills, building on each child's strengths and achievements and providing choices when possible.
- Encouraging open two way communication with families to ensure that each child's rights are met.
- Remaining current in our knowledge and understanding of best practice in working with and supporting all children.

We will respond to challenging behavior by:

- Reminding children of expectations and limits and the reasons for these.
- Supporting children to problem solve, negotiate, find resolutions and manage emotions appropriately.
- Using Restorative Justice Practices that support children to empathise with others and restore relationships.
- Communicating with and involving families at the earliest opportunity to work together positively to assist the child's being and learning.
- Assessing individual children's learning and development and reflecting on and reviewing our planned program and how the active learning environment supports positive behaviors.
- Planning, implementing, monitoring and reviewing individual behaviour plans in partnership with families and support services.
- Being aware of our limitations and seeking assistance when required.
- Withdrawing children when they are at risk of hurting themselves or others, ensuring that an adult is with them all the time.
